Special offer is available to ICTA members and life members.

## Theme

The chosen theme of the 50th NCTA conference is - **"Human Minds in the Digital World"**. The digital world includes many aspects like the internet, social media, online shopping, cloud computing, digital entertainment, digital learning, digital workspace etc. The digital world has a profound impact on human minds. Technology is changing the ways we communicate, work, learn, and play. The digital world has also created new challenges, such as cybercrime and privacy concerns.

Advancement in technology has made human life easier and it has many advantages, at the same time, there are some adverse impacts on mental health such as addiction, cyberbullying, comparison culture, information overload and social isolation. This conference would open avenues for brainstorming on the possible solutions to the above-mentioned challenges. This conference will benefit parents, teachers, trainers, mentors, coaches, managers etc. Register now to ensure your presence at the conference.
